International Grounded Adaptor Plugs *298G Series*

RoHS

Features

- For use with our **171**, **172**, **175**, **176**, **179**, **289** & **298** transformers.
- Heavy duty design with plastic shell & double wipe contacts.
- Indoor use only.
- Allows for ground connection between equipment and international power sources.
- With a set of all 4 adaptors, they will accept equipment with plugs from virtually every country except South Africa!
- **Adaptors do not affect voltages**, they are a mechanical device only to match foreign "pin-outs" of receptacles and/or plugs.
