

# WXMP Set

Product no.: T0052920499N

## Benefits

- › Micro Soldering Pencil with 40 W, 12 V for WX Stations
- › For microscope work
- › Soldering tip can be exchanged quickly and easily
- › Excellent reaction time
- › Extremely short heating time
- › Includes WDH51 tool stand and RTW3-MS tip

### Technical Data

|                                           |                               |
|-------------------------------------------|-------------------------------|
| Active Tip heating element technology     | on                            |
| Power Response heating element technology | ---                           |
| Silver Line heating element technology    | ---                           |
| Voltage                                   | 12 V                          |
| Power                                     | 40 W (55 W with RT 11)        |
| Tip range                                 | RTM                           |
| Supply unit                               | ---                           |
| WX-compatible                             | on                            |
| Temperature range °C                      | 100 - 450                     |
| Temperature range °F                      | 200 - 850                     |
| Heating time                              | 5                             |
| Safety rest                               | WDH 51 (T0051517199), WSR 200 |
| Safety rest (optional)                    | WDH 51 (T0051517199)          |
| Barrel                                    | ---                           |
| Integrated direct extraction              | Attachment T0052918599        |
